

# Cardinal Health™ Customer Experience Panel

## Help us transform your online pharma ordering experience

Cardinal Health is working on a new ordering experience—and we need your feedback to help us get it right.

- Meet one-on-one with a member of our user experience research team
- Review new designs, flows and functionality
- Provide honest feedback on what works well and what needs improvement

Your input will have an immediate and long-lasting impact by influencing real-time change and helping to guide future development.

### What to expect in volunteering

We'll reach out to you to ask your availability well in advance of sessions. You may not hear from us right away, but we will be in touch!

During the virtual session, we'll share a rough draft of what the team has designed. We'll give you a scenario and ask you to use the rough draft to perform a couple of tasks. In no way are we testing your abilities; we are testing the rough draft! We'll ask you questions throughout and discuss what you are experiencing using the rough draft. That's it!
